

A presentation by  
**JAMES RICE**

THE TALLAHASSEE SCIENTIFIC SOCIETY  
PRESENTS

A SPRING SPEAKER SERIES

**HORIZONS 2016**

## **Wheels on Mars: The Adventures and Discoveries of the Mars Rovers**

**James W. (Jim) Rice** is a specialist on the geology of Mars. Based within the Mars Spaceflight Facility at Arizona State University, Rice has more than 25 years of experience studying the surface geology of Mars including the planet's strange history of water. Rice has been involved in Mars landing site selection and certification activities for every NASA Mars mission since Mars Pathfinder in 1995. He also serves on several NASA groups challenged with planning manned missions back to the Moon and Mars.

**March 24, 2016**

**Where:** The IMAX Theater • Challenger Learning Center  
Kleman Plaza • 200 S. Duval Street, Tallahassee

**Times:** Doors Open at 6pm • Presentation: 7pm
